Home of the Senior eXperience

Senior Pictures Frequently Asked Questions (FAQ):

Can we take pictures outside as well as in studio?

Absolutely! There are dozens of outdoors locations on the three acres at Bentz Photography that include a pond, beach, woods, hammock, swing, bridge, and many other professionally landscaped settings.

Can I bring props, band instruments, pets, etc?

You bring anything you would like. We have had cars, dogs, horses, full drum sets, hunting rifles, letter jackets and all kind of accessories. We want you to bring the important things that will tell the unique story of this time in your life.

Can I bring my parents / siblings / friend?

Sure! The studio is huge, so bring whoever you would like to share your Senior eXperience.

How long will a senior session take?

Most of this will depend on you and how quickly or slowly you change outfits. And of course how much "mirror time" you take up as well. An approximate time is about 60-90 minutes for the guys and almost two hours for the ladies.

Do I get actual pictures or just posted online?

You get both! Images are posted online at a website that you can share with family and friends AND you get full sized 4X6 pictures that do NOT have a watermark or an imprint over your face!

How soon do I get the pictures?

Your images will be posted online within 48 hours. The 4x6 sized prints will be available in 1-2 weeks. Once you select the final images for your package, that will take two weeks or less.

Do I have to go to the higher package for more reprints?

No, you can order as many or as few pictures over and above what comes in the package as you would like.

When is payment expected and what kind is accepted?

There is no charge to schedule your appointment. At the time of your Senior eXperience you may pay the full amount, but only half is required. The balance is due at the time your 4X6 proofs are picked up. Bentz Photography accepts cash, check, visa and mastercard.

Am I limited to the same poses for the reprints?

No way! You can pick a different pose/picture for every single enlargement if you would like. The only thing to keep in mind is the wallets are ordered in multiples of 8.

Do you Retouch the images?

All images are color corrected, but there will be no retouching unless requested on your reprints and enlargements order. These retouches are charged on a case by case basis according to the amount of time and extensive nature of the request. If the request is deemed reasonable by the photographer, the action may be completed at no charge.

****Note**** In many cases, there is no need to retouch a blemish on a wallet sized picture because it simply does not show up!

Do I have to listen to your lame music during my session?

No, just bring your Ipod, MP3 player or CD's so you are not subjected to our terrible taste in music.
